Thought of the Week
5/24/15

Giving is always a test a test of our heart. it is also a two way test. God is testing our heart and God desires for us to test and see that He will be faithful. Only God has the power to bless your financing.
Malachi 3 says that when we don't give the tithe to God we steal form Him and it is cursed. A curse is a consequence.
All of our action will carry with them results that impact our lives for the better or worse.
The tithe is a 10% portion that has been set apart by God, it is Holy and it is His.
Tithing is always a test.
Tithing is Biblical from Genesis all the way through to Revelation. It as before the law, and after. It is a principle that does not change.
Tithing is a blessing. we would never think of going to a restaurant and eating and then skipping out on the bill. But every Sunday people go to church and are spiritually fed and skip out! That doesn't not honor God.
It is tithing that rebukes the devourer from our lives
Lets be faithful and see the faithfulness of God in our lives.
